Our graduate students complete a pro-bono Capstone project for external clients as part of their final degree requirement (Public Policy MPP, Public Administration MPA, or Environmental Resource Policy MA-ENRP). Each team provides an evidence-base for recommendations in a written report and formal presentation of their analysis, findings, and recommendations.

## Submit a project proposal: <u>https://bit.ly/3NFath2</u>

#### WHAT KINDS OF ANALYSES ARE COMPLETED?

- Quantitative and/or qualitative analysis
- Projects might include statistical computations, systems reviews, observation assessments, electronic surveys, interviews, evaluation protocols and tools, literature reviews, community asset mapping, data visualization, text thematic analysis, logic models, and case studies

### WHAT WORKS WELL?

- Clients have question(s) for team to answer using an evidence-based approach
- Projects are feasible to deliver in one semester (8-10 weeks)
- Teams can complete tasks remotely and outside standard business hours
- Sources, data, and documents are immediately available or can be gathered within timeframe
- Clients are supportive but do not manage the project

#### WHAT IS THE ROLE OF THE CLIENT?

- Agree on project goal(s) and approach with Capstone Team and Faculty Advisor, which may be an iterative process as findings or sources for data emerge
- Meet periodically with Capstone team to check-in and provide feedback
- As appropriate, help suggest sources and provide access to data
- Offer honest feedback on project products and recommendations
- Ensure that team members are not seen as interns or report to client as an employee

#### WHAT IS THE ROLE OF THE STUDENT?

- Serve as external consultant to the client, contributing approximately 10-15 hours per week
- Honor any confidentiality agreements
- Provide professional products that can inform client decision-making

#### WHAT IS THE TIMELINE?

- For Fall Semester Capstone Projects:
  - Client Interest Form Deadline: End of May/Early June (late submissions are possible)
  - Notification of Project Selection: Late June
  - Project Work Period: September December
- For Spring Semester Capstone Projects:
  - Client Interest Form Deadline: Mid-October (late submissions are possible)
  - Notification of Project Selection: November
  - Project Work Period: January May

# **Capstone Project Examples from Spring 2022**

FIGHT COLORECTALExamined relationship between colorecta state- level policy implementation to iden follow-up colonoscopies after positive tes quantitative and qualitative methods inclu- review, and statistical analyses.HORTON'S KIDSConducted an asset-mapping project in the A to help client better leverage community rest mission. The project included a literature rev method approach to identify gaps, create an critical needs analysis.CENTER FOR STRATEGIC AND INTERNATIONALAnalyzed the impact and effectiveness of US girl's education in Afghanistan. Completed a invested and indicators such as education pa economic participation and empowerment, democracy measures.MARSHALL HEIGHTS COMMUNITY ORGANIZATIONProduced a theory of change model that guid actions to improve Single Room Occupancy Homeless.
