“I absolutely loved the skills I was exposed to and further developed during my MPA studies. The flexibility to cater the degree to my interest areas was very unique. We also must not forget about having access to a phenomenal career services team that is there to guide us from Day 1 of the program to every single job role we land thereafter.”

“TSPPPA’s career services were exceptionally valuable to me. My career advisor took my resume, cover letter, and salary negotiation skills to a level I never knew existed. It is incredibly comforting to know that I have these supports well beyond my graduation from the program.”
