SECTION I: OVERVIEW

The multidisciplinary Ph.D. Program in Public Policy and Public Administration (the Program) in the Trachtenberg School of Public Policy and Public Administration (the Trachtenberg School) at The George Washington University (GW) is designed to help students develop a range of competencies needed to undertake sophisticated research in public policy and public administration. Fundamental to the development of these competencies is a mastery of subjects in multiple academic disciplines, including politics, economics, and quantitative and qualitative methods in policy research. Built upon the diversity and strengths of academic departments and faculty throughout the Trachtenberg School and the University, our program offers you an exceptional education across these disciplines.

This Ph.D. Handbook is going to press during an extraordinary time. Due to the pandemic, virtually all activities and classes are being held remotely, and we do not know when in-person classes and activities will return or how that will be accomplished. Current university plans call for classes to be generally held in person starting with the fall 2021 semester with accommodations for students who cannot attend in person. So, unlike previous years, this handbook cannot tell you exactly what to do and how to do it. We try to cover all the bases, but everything is subject to change. So, start with the handbook, but be sure to check with the Ph.D. Director (Burt Barnow) or the Associate Director for Graduate Programs (Deneé Bottoms) to make sure you have the most up-to-date information.

OUR STUDENTS

Students may complete the Program on either a full-time or part-time basis. Throughout your educational experience, you will receive guidance and support from nationally renowned scholars who offer a wide range of experience in the real world of public affairs, policy, and politics.

As well as developing broad analytical skills in multiple subjects, you will take courses designed to prepare you to undertake research in specific areas of public policy and public administration. Through course work in a specialized field, you will develop expertise for a variety of careers in the public, nonprofit, and private sectors. Program graduates pursue careers in teaching and research, and as policy researchers and analysts. Some hold administrative positions in these sectors, and many are closely involved in the development and evaluation of public policies.

Program Outcomes:

1. Capacity to conduct independent public policy and public administration research.
2. Understanding of the intellectual traditions that make up the fields of public administration and public policy.

3. Understanding of and ability to apply concepts of economic analysis and resource scarcity.
4. Knowledge of relevant literature in the field.
5. Ability to teach core courses in an MPA, MPP, or Ph.D. program.
6. Expertise in a substantive field of public policy or public administration.
7. Ability to make an independent research contribution to the field.

ADVISING AND PROGRAM PLANNING

The Ph.D. Program Director Burt Barnow is the advisor for all doctoral students while they are taking courses required for the core comprehensive examination. The most important advice for successfully planning your program is to consult with your advisor before registering for classes. You should also consult the official [University Bulletin](#), which serves as the guide to the governing university rules and requirements. Peer mentoring with current students farther along in the Program is helpful, but it should never be substituted for faculty advising.

Students should also meet with the field advisors soon after being admitted to the program. Based on your conversations with these faculty members, you will then select one of the field advisors to work with as you select courses and prepare for the field exam. The process of selecting a dissertation director and committee is described elsewhere in this Handbook.

Plan ahead! Careful attention to program planning and course sequencing is necessary to avoid scheduling conflicts. Most core courses are not offered during the summer, and most field courses are offered only once a year. Consult the [Schedule of Classes](#) online, the Assistant Director of Graduate Studies, or your academic advisor for the most current information on scheduling for the upcoming semester.

PROGRAM DIRECTOR

Burt S. Barnow, Ph.D.
MPA 601T
(t) 202-994-6379
(cell) 202-427-7928
barnow@gwu.edu

ASSISTANT DIRECTOR OF GRADUATE STUDIES

Deneé Bottoms
MPA 601X
(t) 202-994-6662
dbottoms@gwu.edu

You should first contact the Assistant Director of Graduate Studies, Deneé Bottoms, anytime you need to file official forms with the University, such as Registration Transaction Forms, or any of the various kinds of petitions. Deneé will know the official process or chain of command for most situations. All forms are available on the [Trachtenberg School website](#) or the [CCAS graduate student website](#), and some important forms are at the end of this handbook.

Deneé will also keep a copy of any paperwork you file with the Program or University for your student record. Finally, many of the questions you may have, such as what courses are being offered during which semester, can be answered by Deneé.

SECTION II: PROGRAM REQUIREMENTS

The Program requires completion of 72 credit hours beyond the baccalaureate degree. Students with an appropriate master's degree can receive up to 24 credit hours toward the Ph.D. In addition, students who can demonstrate that they have passed a course equivalent to PPPA 6013 (Introduction to Econometrics) can receive 3 additional credits, and students who can demonstrate that they have passed a course equivalent to PPPA 6014 (Microeconomics for Public Policy II) can receive 3 additional credits. Assuming previous completion of two prerequisites, doctoral coursework requirements are divided into several general categories: public policy and public administration **core courses**, **field courses**, **elective courses**, and **dissertation credits**. Students work closely with the Program Director and their field advisor to prepare an individualized program of studies. Students must maintain an overall GPA of 3.3 to remain in the Program.

PREREQUISITE COURSES

All students who enter the Program must either have completed the equivalent of the prerequisite courses listed below, complete the prerequisites after they enter the Program, or receive a waiver from the Ph.D. Committee. The prerequisite courses are:

PPPA 6002 (or equivalent): Research Methods and Applied Statistics

PPPA 6007 (or equivalent): Microeconomics for Public Policy I

CORE COURSES

PPPA 8100: Seminar — Literature of Public Administration*

PPPA 6013: Econometrics for Policy Research I*

PPPA 6014: Microeconomics for Public Policy II*

PPPA 8101: Research Methods*

PSC 8229: Politics and Public Policy*

PPPA 8105: Public Finance and Human Capital

PPPA 8022: Econometrics for Policy Research II (or other advanced quantitative course)

PPPA 8023 (or other qualitative course): Mixed Methods in Research Design

PPPA 8174: Public Management

PPPA 8190: Philosophical Foundations of Policy and Administrative Research

PPPA 8191: Dissertation Workshop

* *Courses covered by core comprehensive exam*

RESEARCH METHODS COURSES

The Program requires that students develop research skills alongside the core curriculum and field studies. These skills will complement and support your research interests in your applied field of studies. All Ph.D. students must complete (1) one intermediate graduate-level course in quantitative research methods. In addition, students must complete (2) a more advanced course in quantitative methods and (3) a course in qualitative or mixed research methods.

The intermediate quantitative research methods requirement is normally satisfied by completing PPPA 6013. With advisor approval, students may substitute with an intermediate quantitative methods course that is equivalent in coverage to PPPA 6013, such as DNSC 6274, PSC 8102, Econ 6375, or ECON 8379. Students with a strong technical background may opt to take ECON 8375 as a substitute for PPPA 6013.

1. Intermediate Quantitative Research Methods (*Select One*)

PPPA 6013: Econometrics for Policy Research I
PPPA 6085-14: Advanced Topics in Impact Evaluation
PSC 8102: Empirical Political Analysis
DNSC 6274: Statistical Modeling and Analysis
ECON 6375: Applied Econometrics
ECON 8379: Laboratory in Applied Econometrics
ECON 8375: Econometrics 1

2. Advanced Courses in Quantitative Research Methods (*Select One*)

Each student is required to take one advanced quantitative methods course, typically PPPA 8022 (which is a core course requirement). Students should consult with their advisor about possible substitutions as listed below.

PPPA 8022: Econometrics for Policy Research II
ECON 8376: Econometrics II
ECON 8377: Econometrics III
DNCS 6275: Advanced Statistical Modeling and Analysis

3. Advanced Courses in Qualitative Research Methods (*Select One*)

Each student is required to take one advanced qualitative methods course, typically PPPA 8023 (which is a core course requirement unless the student takes an alternative course). Students should consult with their advisor about possible substitutions as listed below.

PPPA 8023: Mixed Methods in Research Design
PSC 8104: Qualitative Research Methods
PUBH 8417: Qualitative Research Methods and Analysis
SOC 6232: Qualitative Methodology – Doing Field Research
EDUC 8122: Qualitative Research Methods
HIST 6030: Uses of History in International Affairs
EDUC 8131: Case Study Research Methods

FIELD OF STUDY COURSES

In addition to the core curriculum, you will complete 4 or more courses (12+ credits) in one of the following fields to which you were admitted. Requirements for each field are detailed in Section III of this handbook.

Education Policy
Program Evaluation
Public and Nonprofit Management
Public Budgeting and Finance
Science and Technology Policy
Social Policy (*Students are in one of the four fields listed below*):
 Gender and Social Policy
 Poverty and Inequality
 Race, Ethnicity and Public Policy
 Urban Policy

ELECTIVES AND ADDITIONAL COURSES

Students, typically those without a master's degree, may take between 9 and 15 credits of electives. Generally, students use elective credits to supplement course work in their field of study. However, prerequisite courses at the graduate level can be counted as electives toward degree requirements. Students who have not completed course work in intermediate microeconomics or statistics may need to use elective credits to fulfill these requirements.

In individual cases, students may be required to take additional courses as a foundation for their dissertation research. Your field advisor would normally determine if there are any required courses. If you are required to take additional courses, you may count them as elective credits. In some cases, however, these requirements may cause the total number of credit hours to exceed the normal 72 credit hours.

With field advisor approval, students may include courses taken in any department of the University or from member institutions of the Washington Area Consortium of Universities as electives. Registration in Consortium courses is governed by University policies concerning Consortium registration. If you are interested in taking a Consortium course, you must consult with your advisor before registering for the course.

In some cases, **Advanced Reading and Research (PPPA 8998)** can be used to design independent work to supplement elective courses or to provide background in an area related to dissertation research that is not available in a course at GW or the Consortium of Washington Area Universities.

DISSERTATION CREDITS

All students are required to complete between 6 and 15 credits of dissertation research. To fulfill this requirement, students register for:

PPPA 8999 (*for a minimum of 6 credits*): Dissertation Research
CCAS 940: Continuing Research

PPPA 8999 must be taken in 3-credit increments until the 72-credit hour requirement has been met. Credit is not awarded for 8999 until the dissertation is complete. After students have met the

72-credit hour requirement, they register for Continuing Research (CCAS 940), which is available in 1-credit increments.

SECTION III: RECOMMENDED COURSE SEQUENCING

Students enter the Program with very diverse backgrounds; thus, there is not one set list of courses that all students will follow. However, the recommended course sequencing tables below provide templates that can be used to guide course selection.

Students who need to take the prerequisites in economics or statistics should take those courses during the first year. Once prerequisite requirements are met, students typically will first take the required courses that are covered on the Ph.D. core exam.

There are no rigid sequencing requirements except that the economics prerequisite (PPPA 6007) should be completed, if needed, before PPPA 6014 is taken, and the statistics prerequisite (PPPA 6002) should be taken before PPPA 6013.

Field advisors will provide helpful advice on sequencing of field courses and may also provide useful information regarding when field courses will be offered; thus, they should be consulted prior to field course selection.

Although students should select their courses based on their background and interests, they should keep the following guidelines in mind as they select their courses. Courses will fall in one of the following six categories, and students should try to complete the courses in the order presented below.

1. Prerequisite Courses

Students who are not prepared to take the core microeconomics course (PPPA 6014) and/or the core econometrics course (PPPA 6013) should take the appropriate prerequisite courses as soon as possible:

PPPA 6002 (or equivalent): Research Methods and Applied Statistics

PPPA 6007 (or equivalent): Microeconomics for Public Policy I

2. Core Courses Covered by the Core Exam

Students should try to complete the core courses covered by the core exam as soon as feasible so that they can take the core exam during the first two years of their study. These courses are:

PPPA 8100: Seminar — Literature of Public Administration

PPPA 6013: Econometrics for Policy Research I

PPPA 6014: Microeconomics for Public Policy II

PPPA 8101: Research Methods

PSC 8229: Politics and Public Policy

3. Core Courses Not Covered by the Core Exam

The courses listed below are required core courses, but they are not covered by the core exam, so students can take them later in their studies.

PPPA 8105: Public Finance and Human Capital

PPPA 8022: Econometrics for Policy Research II (or other quantitative course)

PPPA 8023 (or other qualitative course): Mixed Methods in Research Design

PPPA 8174: Public Management

PPPA 8190: Philosophical Foundations of Policy and Administrative Research

4. Required Field Courses

Students should work with their field advisor to take the courses that are required for their field. The specific courses vary by field.

5. Other Field Courses, Other Required Courses, and Electives

This category includes all other courses needed to meet degree requirements. Students must take one additional quantitative methods course and one additional qualitative methods course (listed under core courses not covered by the core exam). Students are required to take at least four courses in their field, and they must take other courses (including dissertation research) to bring their total credits to 72. Note that students must take all required courses, and this may result in the need to take more than 72 credits.

SECTION IV: FIELDS OF STUDY

EDUCATION POLICY

Education and training policies play an important role in the economic and social wellbeing of local communities, states, and nations. From preschool to graduate school, improving the quality of education is a priority for policymakers worldwide. The education policy track draws on multidisciplinary tools from economics, education, philosophy, political science, psychology, and sociology to train researchers and practitioners to: identify education policy problems and opportunities, develop policy alternatives, analyze their costs and benefits, influence policy decisions, plan and guide the implementation of new policies, and evaluate the impacts of education programs and policies.

Field Advisors

DR. STEPHANIE CELLINI

Professor of Public Policy & Public Administration, and Economics
(t) 202-994-0019
scellini@gwu.edu

DR. DYLAN CONGER

Professor of Public Policy & Public Administration, and Associate Director
(t) 202-994-1456
dconger@gwu.edu

DR. YAS NAKIB

Associate Professor of Education Policy, and Public Policy and Public Administration
(t) 202-994-8816
nakib@gwu.edu

Curriculum

Students in the Education Policy field must complete two required core courses, plus two additional courses in methods and topics chosen in consultation with their advisor.

Education Policy Core

EDUC 8321: Economics of Education

EDUC 8322: Education Policy Implementation

Education Policy Topics

ECON 8341/42: Labor Economics

ECON 8351/52: Development Economics I

ECON 8358: Urban Economics

ECON 8363/64: Public Finance I

EDUC 6555: Higher Education Policy
EDUC 8320: Politics of Education
EDUC 8323: Policies of Education Equity
EDUC 8325: Policy Design — Education Accountability
EDUC 8340: Methods of Policy Analysis in Education
PPPA 6048: Financing State & Local Government
PPPA 6049: Urban and Regional Policy Analysis
PPPA 6054: Issues in Federal Budgeting
PSC 8286: U.S. Social Policy

Education Policy Methods

ECON 6291: Methods of Demographic Analysis
ECON 6300: Mathematical Methods for Economics
ECON 8375: Econometrics I
ECON 8379: Applied Econometrics Lab (micro version)
PSC 8122: Longitudinal Analysis
PSC 8124: Multilevel Modeling
PSC 8130: Game Theory I
PSC 8131: Game Theory II
PPPA 6015: Benefit-Cost Analysis

Comprehensive Field Examination

Upon completion of coursework in the field, students take a comprehensive field exam involving two parts:

1. Content from the core education policy field courses
2. Content from field electives that typically focus on one of the following areas (area is chosen in consultation with your advisor and will be based loosely on topics covered in your field electives):
 - a. Early childhood education
 - b. Elementary and secondary education
 - c. Higher education
 - d. Education finance
 - e. Education inequality
 - f. Economics of education

PROGRAM EVALUATION

The Program Evaluation field is designed for Ph.D. students who wish to develop both quantitative and qualitative research skills that may be applied to analyze and assess the performance of public and nonprofit programs. As a student in this field, you will be exposed to research methods from multiple disciplines that will prepare you for program evaluation and performance auditing professions.

Field Advisors

DR. KATHRYN NEWCOMER

Professor of Public Policy and Public Administration

(t) 202-994-6295

newcomer@gwu.edu

DR. BURT S. BARNOW

Amsterdam Professor of Public Service and Economics

(t) 202-994-6379

barnow@gwu.edu

Curriculum

Students in the Program Evaluation field must complete two required core courses, plus two additional courses in methods and topics chosen in consultation with their advisor.

Program Evaluation Core (*covered on field exam*)

PPPA 6016: Public and Nonprofit Program Evaluation

PPPA 8164: Seminar on Program Evaluation

Program Evaluation Electives (*choose 2; courses approved by the field advisor may be substituted for the courses listed below*)

ANTH 6331: Research Methods in Development Anthropology

DNSC 6275: Advanced Statistical Modeling and Analysis

HSML 6276: Exploratory and Multivariate Data Analysis

ECON 8375: Econometrics I

ECON 8376: Econometrics II

EDUC 8122: Qualitative Research Methods

PPPA 6015: Benefit-Cost Analysis

PPPA 8023: Mixed Methods in Research Design

SOC 6232: Qualitative Methodology: Doing Field Research

STAT 6287: Modern Theory of Sample

STAT 6291: Methods of Demographic Analysis

STAT 8265: Multivariate Analysis

STAT 8266: Topics in Multivariate Analysis

STAT 8281: Advanced Time Series Analysis
STAT 8288: Surveys

Comprehensive Exam

The purpose of the field exam in the Program Evaluation field is for students to demonstrate proficiency in the major themes, methods, and debates in the field. It provides an opportunity for students to confirm the breadth and depth of their knowledge and their readiness to make an original contribution to the field.

The exam is a take-home, open-book, exam that entails writing five essays and takes three days to complete, e.g., 6 pm Thursday until midnight on Sunday. The questions are based on the field courses the student has completed. Two of the questions address topics covered in PPPA 8164, and the other three questions address the topics in the other three field courses the student completed. Typically, the student is presented with some choice.

The student should write about seven pages, double-spaced, for each essay. The essays should draw on the courses completed and do not require the student to go beyond those lists (though other materials are allowed).

Students may choose exam dates in consultation with the field advisors.

PUBLIC AND NONPROFIT MANAGEMENT

This field is for Ph.D. students with a generalist's orientation towards conducting research on complex problems in public policy and administration. Students specializing in this field may carry out research on a variety of themes such as public and nonprofit management, and issues that lie at the intersection of traditional fields such as social policy, program evaluation, public budgeting and finance, education policy, health policy, and public administration.

The purpose of completing the field coursework is two-fold:

1. To develop an overarching and integrated perspective on public and nonprofit management
2. To develop theoretical knowledge and methodological competencies that will be useful in conducting scholarly research in public and nonprofit management.

Students who have not already completed a Master of Public Administration/Policy (MPA/MPP) degree, either at The George Washington University or at another university, will be expected to complete selected MPA/MPP core courses before taking more advanced coursework in this field.

In this field, the field advisors will work with you on an individual basis in identifying the appropriate coursework. Although most of your coursework will consist of public policy and administration courses, you may also include courses from other GWU departments as well as courses at other universities participating in the Consortium of Washington Area Universities upon consultation with your advisor.

Field Advisors

DR. LORI BRAINARD

Associate Professor of Public Policy and Public Administration
(t) 202-994-1091
brainard@gwu.edu

DR. SANJAY K. PANDEY

Shapiro Chair of Public Policy and Public Administration
(t) 202-994-1084
skpandey@gwu.edu

Curriculum

Students are required to take 4 field courses — The field has one required course and three elective courses.

The purpose of completing the field coursework is to develop competencies and knowledge that will be useful in conducting scholarly research in public and nonprofit management on dissertation and other relevant themes.

Students are required to take 4 field courses; 3 are elective and 1 is required of all students. The required course is:

PPPA 8164: Seminar in Program Evaluation Doctoral seminar on theory and practice in public and nonprofit program evaluation

The choice of **elective** field courses should be guided by the field coursework purpose. Given the scope of Public and Nonprofit Management, both in academe and in practice, we do not offer a closed master-list for choosing field elective courses. Rather, students must abide by the following guidelines:

1. Students should consult with an appropriate field advisor about field electives and communicate the agreement about field courses to all field advisors (e-mail is sufficient). If this plan gets updated, changes in plan should be communicated as well.
2. For the consultation meeting with one of the field advisors, student should prepare a list of candidate courses. This list should be prepared with the following criteria in mind:
 - a. The proposed list should be made of doctoral courses (review doctoral seminars offered by other fields in the doctoral program, doctoral courses offered at Washington Metropolitan Area Consortium schools/programs, as well as doctoral-level methods courses. Other departments and programs may also have relevant courses.)
 - b. If a Masters-level course is proposed, students need to propose and obtain prior approval, from the instructor of the course, for additional assignments/activities that will make it a worthwhile doctoral elective.
 - c. Elective courses may be used to take methodologically-oriented courses that will prepare you to carry out dissertation research.
 - d. Students may also take a directed readings courses with faculty they want to request to serve as their dissertation director. Students are, of course, encouraged to consider doing directed readings with other TSPPPA faculty as well.

Comprehensive Field Examination

Purpose:

The purpose of the field examination is to assess student preparedness to undertake dissertation research in public and nonprofit management. Students are encouraged to seek faculty guidance and feedback on ways in which the field examination can advance their dissertation interests.

Coverage:

Students are expected to have a deep knowledge of material covered in core courses, field courses, and academic literature relevant to student's dissertation research interests. Further, students are expected to stay current and be conversant with the scholarly peer-reviewed literature in their field of study.

Student Responsibilities:

1. Students may make a request for the field examination at the beginning of either the Fall semester or the Spring semester. The field examination will not be offered during the summer session.
2. **Before a student can request to schedule the field examination, s/he needs to have a TSPPPA faculty member tentatively agree to serve as the student's dissertation director¹. The field examination will be administered by the intended dissertation director in consultation and collaboration with one of the field advisors in accordance with the format and procedures laid out in this document.**
3. Student should share this document with the intended dissertation director so that s/he is familiar with faculty role and obligations in this process.
4. Student should also become familiar with and follow the specific guidelines provided under sections titled format and procedures below.
5. Academic integrity is central to doctoral work at GW. Any indication that any part of a student's field examination essay is not the original work of the student will result in a failing grade with no subsequent opportunity to revise and resubmit the field examination essay.

Format:

1. The intended dissertation director, in consultation and collaboration with one of the PNM field advisors who will act as a second reader, will administer the field examination.
2. The field examination requirement is for the student to submit an essay to the intended dissertation director and the second reader. The field examination essay should be relevant to the field and can be any combination of a quantitative study, a qualitative study, or a literature review.
3. The field examination essay should be comparable in length, style, and quality to a journal manuscript. Specific formatting requirements (i.e. length, style, structure, etc.) for the field examination essay will be determined in a discussion with the intended dissertation director and the second reader (see point 3 under procedures).
4. The field examination essay may be extension of work the student has done as part of an independent study or other coursework. The field examination essay must, however, be sole-authored original work.
5. The possible grades for the field examination essay are: High pass, pass, bare pass, fail.

¹ Note that the student does not need to have a dissertation proposal developed at this stage. Also, at this stage the requirement is that there be an "intended dissertation director" which means that the student has made a request to a TSPPPA faculty member who has tentatively agreed to serve in this role. Once the field examination is over, the faculty member may choose not to continue in the dissertation director role and the student may request another faculty member to serve in the dissertation director role.

Procedures:

1. The intended dissertation director, in consultation with the student and a PNM field advisor, will schedule the exam and notify the PhD director.
2. The intended dissertation director will identify a second reader, typically one of the field advisors. In exceptional cases, the second reader can be another TSPPPA faculty member with relevant expertise.
3. **Within two weeks of the notification to the PhD Director (as described in step 1 above) about scheduling of the field examination, the student should prepare a field examination essay proposal and request meetings with the intended dissertation director and the second reader to obtain feedback on the proposal.** This can be a joint meeting or two individual meetings at the discretion of the faculty members. The field examination essay proposal should at a minimum have the following elements, title, abstract, outline, and identify a journal to which the essay may be submitted (e.g., PAR, JPART, JPAM, ARPA, A&S, PPMR, ROPPA etc.).
4. Following this meeting with the intended dissertation director and the second reader, the student will have 8 weeks to complete the field examination essay and submit it to the intended dissertation director and the reader.
5. The intended dissertation director and the second reader will review the field examination essay and provide written feedback. The feedback may be provided in the form of either written comments on the essay or a typical journal peer-review report.
6. The intended dissertation director, in consultation with the second reader, may require revisions to the field examination essay. The student will submit: i) a revised field examination essay within 4 weeks of receiving the feedback from the intended dissertation director and the second reader; and ii) a document itemizing and detailing specific steps taken in response to the feedback provided.
7. The student will have only one opportunity to revise and resubmit the field examination essay before receiving a final grade.
8. The intended dissertation director, in consultation with the second reader, will notify the student of the final grade, copying the PhD director, and TSPPPA Assistant Director for Graduate Studies.

PUBLIC BUDGETING AND FINANCE

This field is designed for students who desire a greater depth and breadth of knowledge about those issues surrounding taxation, public expenditure, and the management of financial resources. The field generally draws on several intellectual traditions including economics, political science, accounting and public administration. As a student who successfully completes this field of study, you will be prepared to teach a wide variety of general courses in budgeting and public finance, and you will have a solid understanding of the research questions and methodologies that have defined this field.

Field Advisors

DR. JOSEPH CORDES

Professor of Economics, Public Policy & Public Administration, and International Affairs
(t) 202-994-5826
cordes@gwu.edu

DR. KATE YANG

Assistant Professor of Public Policy & Public Administration
(t) 202-994-6621
langyang@gwu.edu

Curriculum

Students in the Public Budgeting and Finance Policy field must complete four courses; one required core course, and three additional courses selected in consultation with the field advisor of which one course should be a doctoral-level course in accounting, economics, finance, public policy and public administration, or political science. Courses offered in the MBA Program, and in the MA in Applied Economics may be substituted for the required doctoral level course with advisor approval.

Public Budgeting and Finance Core

PPPA 6005: Public Budgeting, Expenditure and Revenue Analysis (or equivalent)

Public Budgeting and Finance Accounting, Economics or Political Science Electives

*Non-exhaustive list; other courses may be selected with advisor approval.

ACCY 8001: Seminar in Accounting Theory

ACCY 6701: Government and Nonprofit Accounting and Auditing

ECON 8363: Public Finance I (Public Goods and Expenditures)

ECON 8364: Public Finance II (Tax Incidence)

ECON 6305: Applied Macroeconomic Theory

ECON 6323: Applied Behavioral Economics

ECON 6330: Applied Macroeconomic and Monetary Policy

ECON 8363: Public Finance I

ECON 8364: Public Finance II
FINA 8324: Topics in Empirical Finance
PHIL 6231: Economic Justice
PPPA 6016: Public and Nonprofit Program Evaluation
PPPA 6015: Benefit-Cost Analysis
PPPA 6048: Financing State and Local Government
PPPA 6052: Tax Policy
PPPA 6053: Public and Nonprofit Financial Management
PPPA 6054: Federal Budget Policy
PPPA 6055: Contracting Out and Privatization

Comprehensive Field Examination

The field examination in Public Budgeting and Finance is administered as a take-home exam (open book, open note) over a 48-hour period. The examination consists of two parts. One part is made up of questions based on a list of general topics and readings provided by the faculty examiners which is common to all students taking the examination. These general topics will include material from PPPA 8105 and PPPA 8174 in addition to material from the field core and selected field electives. The second part is based on a list of individualized topics and readings developed by each student being examined, which is approved by the examiners. Examples of possible individual topics are fiscal decentralization/federalism; state and local tax policy; performance budgeting, public private partnerships and uses of the tax system for social purposes.

SCIENCE AND TECHNOLOGY POLICY

The Science and Technology Policy field focuses on the interactions among scientific development, technological change, and governmental and private-sector activities at the domestic and international levels. This field of study trains students to understand and manage issues at the intersection of science, technology, industrial strategy and structure, and government policy. The field emphasizes a comparative approach to science and technology policy, founded on the twin poles of in-depth understanding of domestic policies and continuous coverage of policy developments around the world. As a student in this field, you will have frequent opportunities for involvement in the activities of the Elliott School's Institute for International Science and Technology Policy and Space Policy Institute.

Field Advisors

DR. NICHOLAS VONORTAS

Professor of Economics and International Affairs

(t) 202-378-6230

vonortas@gwu.edu

DR. NINA KELSEY

Assistant Professor of Public Policy and International Affairs

(t) 510-529-9399

ninakelsey@gwu.edu

DR. HENRY HERTZFELD

Professor of Space Policy and International Affairs

Stand-in Director, Space Policy Institute

(t) 202-994-6628

hrh@gwu.edu

Curriculum

Students in the Science and Technology Policy field are required to take 4 field courses — 2 are electives and 2 are core requirements.

Science and Technology Policy Core (Required)

IAFF 6141: International Science and Technology Policy Cornerstone

IAFF 6143: Science, Tech, and Policy Analysis OR

IAFF 6085: Seminar in Science and Technology Policy [*offered every 2-3 years*]

Science and Technology Policy Electives

The courses listed below are taught by the ISTP program. Students may also propose other courses of relevance to their designated specialization. Such courses may be offered by the Columbian College of Arts and Sciences (e.g., Economics, Political Science, History, Statistics),

the School of Business (e.g., Strategic Management and Public Policy, International Business, Finance), the School of Engineering (e.g., Engineering Management and Systems Engineering, Computer Science, Biomedical Engineering), and others. Proposed courses will be evaluated by the S&T Policy Program Director.

IAFF 6142: Technology Creation/Diffusion

IAFF 6143: Science and Technology Policy Analysis

IAFF 6145: U.S. Space Policy

IAFF 6146 / Law 6548: Introduction to Space Law

IAFF 6148: Space and National Security

IAFF 6151: Environmental Policy

IAFF 6153: Science, Technology & National Security Policy

IAFF 6158: Energy Policy

IAFF 6158 / ECON 6255: Economics of Technological Change and Innovation

IAFF 6158: Space Economics

Comprehensive Field Examination

Upon completion of coursework in the field, students will take a comprehensive field exam. The exam is offered once or twice in an academic year, following a petition from students. The examination relies on the content of the science and technology policy field core courses (cornerstone, capstone, and seminar) and the field electives. In addition, the exam will reflect the specific courses taken by the student and their individual areas of interest. We write an exam that reflects the courses taken by the student and their individual areas of interest. Expectations for students during the examination include:

- Staying current and being conversant with the scholarly peer-reviewed literature and important gray literature (i.e. literature produced by different governmental and non-governmental bodies such as relevant federal agencies, the World Bank, Brookings, Rand, EU, OECD, UN Agencies, etc.).
- Discussion should go beyond the readings covered in class.
- Mastery of course material, a demonstrated command of major concepts and literature in the field, and an ability to think beyond concepts directly covered in classes.

The format of the exam is as follows:

- Take home, open book, open notes exam.
- Two sections (select three of four questions in each section):
 - One on Science and Technology policy theory
 - One on specific areas of interest
- Time frame – three days

Two graders read each answer and confer on a final grade. One of the two graders is related to the specific area of interest of the student.

SOCIAL POLICY

The Social Policy field of study offers students the opportunity to study how the actions and decisions of government within the contexts of gender, ethnicity, or urban settings influence the wellbeing of individuals and of society, with a particular focus on poverty and income inequality. Most public policy discussions-local, national, or international-include explicit or implicit assumptions about gender, race and location. Scholarship across various disciplines has demonstrated the importance of studying the interconnections among gender, race, class, and other forms of social inequality. Conflicts associated with these topics affect all institutions and social interactions of every type, and frequently dominate a range of policy debates.

Drawing on interdisciplinary theories and methodologies, as a student in this field, you will gain a broad understanding of: historical trends in poverty and inequality, scholarship illuminating the causes of consequences of poverty and inequality, the current landscape of social welfare programs (defined broadly), and the politics of poverty and inequality in America. In addition, students choose an area of specialization from the following: (a) gender and social policy, (b) race, ethnicity, and public policy, (c) poverty and inequality, or (d) urban policy. This specialization provides a theoretical lens for examining social policy.

Curriculum

Students in the Social Policy field must complete one common field course, required courses in their area of specialization, and one or more additional courses selected from electives suggested for that specialization or other courses chosen with advisor approval, to equal a total of 12 credits in the field.

Social Policy Core Requirement

PPPA 8197 (U.S. Social Policy)

Gender and Social Policy Specialization

Field Advisors

DR. CYNTHIA DEITCH

Associate Professor of Women's, Gender, & Sexuality Studies, of Sociology, and of Public Policy & Public Administration

(t) 202-994-7438

deitch@gwu.edu

DR. IVY KEN

Associate Professor of Sociology, of Public Administration, and WGSS affiliated faculty

(t) 202-994-1886

ivyken@gwu.edu

Curriculum

Along with the Social Policy field core course, students in the Gender and Social Policy specialization must complete two specialization core courses and one additional elective.

Gender and Social Policy Core

WGSS 6221: Research Issues in Women's, Gender and Sexuality Studies

WGSS 6240: Gender and Public Policy

Gender and Social Policy Electives (others by approval)

AMST/HIST/WGSS 6431: Gender, Sexuality and American Culture

ANTH 6501/WGSS 6257: Gender and Sexuality

PHIL/WGSS 6238: Feminist Ethics and Policy Implications

SOC/WGSS 6268: Race, Gender, and Class

SOC/WGSS 6271: Gender and Society

WGSS 6220: Fundamentals of Feminist Theory

WGSS 6225: Contemporary Feminist Theory

WGSS 6230: Global Feminisms

WGSS 6241: Gender, Law, and Politics

WGSS 6265: Women, Welfare, and Poverty

WGSS 6283: Practicum in Women's, Gender and Sexuality Studies

Comprehensive Field Exam

The Purpose of the field exam in Gender and Social Policy is for students to demonstrate proficiency in the major themes, methods, and debates in the field. It provides an opportunity for

students to confirm the breadth and depth of their knowledge and their readiness to make an original contribution to the field.

In consultation with the field advisors, each student develops 3 reading lists as follows:

- One list includes readings related to WSTU 6221: Research Issues in Women's/Gender Studies (a required field course) plus selected readings from other field courses that have influenced the student's intellectual trajectory but do not appear on the other lists.
- The other two lists cover two substantive areas related to gender policy that best fit the student's research interests and academic work in the field. One of these lists could be closely related to the student's expected dissertation topic. Both lists should include classic texts and current journal articles. While students are encouraged to include relevant readings from field courses, they should also move beyond coursework in their selections.

The exam is a take-home, open-book, essay exam that usually takes three days to complete. The questions are based on the reading lists. Students answer a total of three essay questions. Typically, in Part A, the student is presented with two questions and must choose one to answer. In Part B, the student is presented with three or four questions and must choose two to answer.

The student should write seven to 10 pages, double-spaced, for each essay. The essays should draw on the reading lists and do not require the student to go beyond those lists (though other materials are allowed).

Students may choose exam dates in consultation with the field advisors.

Race, Ethnicity and Public Policy Specialization

Field Advisors

DR. GREGORY D. SQUIRES

Professor of Sociology, and Public Policy & Public Administration
(t) 202-994-6894
squires@gwu.edu

DR. STEVEN TUCH

Professor of Sociology, and Public Policy & Public Administration
(t) 202-994-7466
steven.tuch@gwu.edu

Curriculum

Along with the Social Policy field core course, students in the Race, Ethnicity and Public Policy specialization must complete 2 specialization core courses and one additional elective.

Race, Ethnicity and Public Policy Core

SOC 6245: Race Relations

SOC 6248: Race and Urban Redevelopment

Race, Ethnicity and Public Policy Electives*

LAW 6595: Race, Racism and American Law

LAW 6596: Law of Race and Slavery

PSC 8211: Urban Politics

PSC 8212: Urban Policy Problems

PSYC 8236: Minorities and Mental Health

SOC 6250: Urban Sociology

SOC 6252: Special Topics (with approval)

SOC 6268: Race, Gender, and Class

Comprehensive Field Exam

The comprehensive exam is based on materials covered in the two required field courses, the one elective field course, and the Social Policy field course (PPPA 8197) as well as associated scholarly literatures. An initial reading list compiled by the student is reviewed and supplemented by the field advisors. The reading list should be submitted a minimum of 3 months prior to the date of the exam. Students are also asked to provide field advisors with a list of faculty from whom they have taken their field courses so questions can be solicited from those faculty. Field advisors then compile the exam. The format of the exam is a five-day, open book take-home consisting of 3 or 4 questions, with some choice factored in. Students will be provided with the questions at noon on Wednesday and be required to submit their answers by noon the following Monday. Answers typically range from 10-15 pages per question. Two readers evaluate each question and submit a single grade for each question they grade. Field advisors then submit a single grade for the exam.

Poverty and Inequality Specialization

Field Advisors

DR. DYLAN CONGER

Professor of Public Policy & Public Administration and Associate Director

(t) 202-994-1456

dconger@gwu.edu

DR. ELIZABETH RIGBY

Associate Professor of Public Policy and Public Administration

(t) 202-994-6196

erigby@gwu.edu

Curriculum

Along with the Social Policy field core course, students in the Poverty and Inequality specialization must complete three additional field electives.

Poverty and Inequality Electives (choose 3)

ECON 6330: Applied Macroeconomics and Money

ECON 6340: Applied Labor Economics and Public Policy

EDUC 8323: Policies of Education Equity

HIST 6011: History and Public Policy

LAW 6595: Race, Racism and American Law

LAW 6596: Law of Race and Slavery

PHIL 6230: Ethical Issues in Policy Arguments

PHIL 6231: Economic Justice

PHIL 6238: Feminist Ethics and Policy Implications

PHIL 6242: Philosophy, Law and Social Policy

PPPA 6015: Benefit-Cost Analysis

PPPA 6054: Issues in Federal Budgeting

PPPA 6065: Federalism and Public Policy

PPPA 6076: Federal Government Regulation of Society

PPPA 6085: Comparative Public Policy

PSC 8211: State and Urban Politics

PSC 8212: Urban Policy Problems

SOC 6250: Urban Sociology

SOC/WGSS 6265: Women, Welfare, and Poverty

SOC 6268: Race, Gender, and Class

WGSS 6240: Gender and Public Policy

Comprehensive Field Exam

No less than three months in advance of the desired date of the field examination, students should notify the field advisors of their intent to take the exam, as well as the relevant courses the student has taken. Exams are written take-home exams, tailored to student interest.

lfbrooks@gwu.edu

DR. HILARY SILVER

Professor of Sociology

(t) 202-994-6899

hilarysilver@gwu.edu

Curriculum

Along with the Social Policy field core course, students in the Urban Policy specialization must complete two specialization core courses and one additional elective.

Urban Policy Core

Required:

PPPA 8197: US Social Policy

Choose one of these two:

PSC 6252: Housing and Homelessness

PSC 8212: Urban Policy Policies

Urban Policy Electives (*choose 2; other courses may be selected with permission of field advisor*)

AMST 6495: Historic Preservation — Principles & Methods I

AMST 6520: Economics of Preservation

AMST 6525: Politics of Historic Preservation

ECON 8341: Labor Economics I

ECON 8342: Labor Economics II

ECON 8357: Regional Economics

ECON 8358: Urban Economics

ECON 8363: Public Finance I

ECON 8364: Public Finance II

EDUC 8323: Policies of Education Equity

GEOG 6243: Urban Geography Seminar

GEOG 6244: Seminar — Urban Sustainability

GEOG 6290: Principles of Demography

PPPA 6042: Managing State and Local Governments

PPPA 6043: Land Use Planning, and Community Development
PPPA 6048: Financing State and Local Government
PPPA 6051: Governmental Budgeting
PPPA 6054: Issues in Federal Budgeting
PPPA 6085: Homelessness
PSC 8211: Urban Politics
PSC 8388: Selected Topics in Comparative Politics
PSYC 8246: Personnel Evaluation Technology
SOC 6245: Race Relations
SOC 6248: Race and Urban Redevelopment
SOC 6250: Urban Sociology
SOC 6259: Criminology
SOC 6262: Corrections
SOC 6263: Race and Crime

Comprehensive Exam

No less than three months in advance of the desired date of the field examination, students should notify the field advisors of their intent to take the exam, as well as the relevant courses the student has taken. Exams are written take-home exams, tailored to student interests.

SECTION V: THE COMPREHENSIVE EXAMINATION

Students must pass a Comprehensive Examination in Public Policy and Administration that consists of two parts — the core exam and the field exam.

There are four possible grades on each exam: Pass with Distinction, Satisfactory Pass, Low Pass, and Fail. In order to pass the overall Comprehensive Examination, you must receive a grade of at least Satisfactory Pass on either the core or the field examination and must not fail either examination. To receive a passing grade on either part of the comprehensive exam (the core exam and the field exam), you must receive a grade of Low Pass or higher on each question.

If a student does not receive at least a Satisfactory Pass on both the field and core exam, they may retake either part one time to raise his/her grade to a satisfactory pass. Neither part may be retaken more than once.

Failure to pass either the core or field Comprehensive Examination on the second attempt results in termination from the program. Upon completion of the Comprehensive Examination, you will advance to candidacy and enter the dissertation phase of study.

CORE EXAMINATION

During the core examination, you will have the opportunity to demonstrate a mastery of the core skills needed for the analysis of policy issues. The exam serves as an instrument for assessing your capacity for further doctoral studies. Note that the examination is designed to integrate knowledge about the field and is not limited to specific content covered in the individual courses. The core examination is generally administered during the week before classes start in the fall semester (late August) and spring semester (early January).

Students take the core examination after they have completed the examined courses in the program's public policy and administration core. Full-time students typically take the exam after three semesters in the program (this is typically four to six semesters for part-time students), and before they complete a significant amount of coursework in their field of study.

FIELD EXAMINATION

Students take a field examination in their selected field of concentration, usually after passing the core examination and completing the required field courses for their respective field. In exceptional circumstances students may submit a petition to take the field exam first. During the field examination, you will have the opportunity to demonstrate a mastery of core issues, concepts, and methods in your selected field of study.

The Process:

All students must meet with a field advisor at least 3 months before they expect to take the exam. At that time, the field advisor will work with you to determine a date for the exam and share details about the specific process.

In most cases, field exams are offered once per semester. They are administered as either 1) in-class, closed-book exams taken in one day, or 2) take-home, open-book exams taken over 2-4 days. (As noted above, the public and nonprofit management field requires students to write a scholarly paper instead of taking an exam.) In all fields, the exams are read by at least two graders, and a single, unified grade is provided to the student no more than 4 weeks after submitting the exam.

Performance Expectations:

- All the key elements of the questions need to be addressed.
- Complexities should be anticipated and addressed.
- Responses should draw upon applicable scholarly literature and exhibit a critical understanding of those sources.
- The scholarly literature should be applied to analyze the situation indicated in the question and respond to the tasks specified in the question (versus the literature being strictly summarized).
- Responses are expected to draw on materials beyond class readings. In some fields, students develop a reading list in advance of the exam.
- Responses should draw connections among multiple sources.
- Responses should make a coherent point.
- Responses should be clearly written.

SECTION VI: THE DISSERTATION

Your dissertation should consist of a scholarly examination of an important public policy or public administration problem or issue. All dissertations should have a solid conceptual grounding in either or both fields and should explore, critique, and/or extend existing scholarly literature in the candidate's chosen field. The dissertation's findings, conclusions, and modes of analysis and argumentation should be of interest to a significant segment of the intellectual community, as well as, and perhaps just as important, to citizens and public officials concerned about the dissertation's topic. The conclusions of the dissertation should be well supported by the research conducted and the evidence presented.

Time to Complete

The dissertation must generally be written, defended, and accepted (and all coursework completed) within eight years of entering the Program. In special circumstances the Associate Dean for Graduate Studies of CCAS may approve an extension, in which case the student may be required to register for up to six hours of Reading and Research.

STEP 1: SELECT ISSUE OF INTEREST AND METHODOLOGICAL APPROACH

The first step of the dissertation process is to select an issue of interest. Based on that topic, a variety of theoretical and methodological approaches can be the basis for conducting the research for the dissertation:

1. The dissertation may pose a primary research question, or a series of related research questions, that guide the dissertation's empirical inquiry. Whether the methodological approach selected is chiefly "qualitative" or "quantitative" should depend on its suitability for producing findings of intellectual and practical interest. By implication, methodology follows function (the substantive nature of the problem or issue being addressed by the dissertation).
2. The dissertation may chiefly "make an argument" rather than "answer a question." Dissertations of this type consist of theoretical, philosophical, or historical analyses that critique and/or reframe taken-for-granted understandings of policy and administrative problems on the basis of which novel problem definitions and even solutions might be formulated. They often take a particular theoretical model, construct, or philosophical position itself as the focus of investigation, rather than using it as a vehicle to produce empirical findings.
3. Case studies, so long as they are solidly grounded theoretically and effectively used as vehicles for critical analysis, are also acceptable. The "generality" of case studies will depend less upon their statistical generalizability than on the candidate's ability to evoke general scholarly interest by imaginatively linking "thick" empirical description with theoretical analysis.

These three general types of dissertations should not be seen as mutually exclusive. Some overlap may occur, and combinations of the three types can be mutually reinforcing. The ultimate approach taken in the dissertation is determined based on the research topic or question of interest you select working in close consultation with the dissertation director and members of

your dissertation committee and will vary across public policy and public administration fields and from dissertation committee to dissertation committee.

STEP 2: PREPARE FOR DISSERTATION PROPOSAL

The dissertation proposal typically includes a statement of a public policy and/or public administration problem and research questions, a review of the relevant literature, and a description of the research design and methodology to be used.

Students are required to present their proposal formally to a group of faculty members prior to receiving approval to proceed. The group of faculty consists of your prospective **Dissertation Research Committee**. The committee is comprised of (1) a Director, plus two members or (2) two Co-Directors and two members. Either the Director or one of the Co-Directors must be a member of the Trachtenberg School faculty. The eligible faculty are listed on the [Trachtenberg School website](#). Other members of the Dissertation Research Committee may be from inside or outside of CCAS, but they must have the terminal degree in their discipline. The PhD Program Director must approve your Dissertation Research Committee.

Since at the time of the final dissertation defense each dissertation is required to be read by two examiners in addition to the committee, it may be useful for you and your Dissertation Director (with the concurrence of the Program director) to identify at least one of these individuals at the proposal stage. Membership at the final oral examination requires that one of the two examiners be from outside of the Trachtenberg School.

Students should send the [Proposal Review Scheduling Form](#) (can also be obtained from the Assistant Director of Graduate Studies) that identifies the members of the committee at least three weeks before the scheduled proposal review. The email, sent to the Program Director, should include the CVs of any proposed members of the Dissertation Research Committee who are from outside of GW, and/or who do not have the terminal degree. The Program Director and the Associate Dean for Graduate Studies of CCAS must approve the members' participation.

The review can be scheduled only after every member of the Dissertation Research Committee agrees that the proposal is ready to be presented and informs the Program Director as indicated on the [Dissertation Proposal Review Scheduling form](#). The review will not be scheduled if the student has any outstanding grades of "incomplete" or "in progress." A completed [Program of Study form](#), should be on file with the Assistant Director for Graduate Studies, Deneé Bottoms, before the review is scheduled. As soon as the Program Director gives the student permission to proceed, the student should:

1. Consult with the members of the Dissertation Research Committee to find a date and time for the review. The proposal is normally distributed to members of the committee a month (and no less than three weeks) before the proposal review date. All committee members should be prepared to devote at least two hours to the review.
2. Work with Trachtenberg School staff to find a suitable room for the review. The room should be available for at least two hours (and preferably longer) and should be able to accommodate the committee plus several guests. **Note:** This edition of the PhD Handbook was prepared while the school is operating remotely and transitioning to in-

person activities. While these rules are in effect, dissertation reviews and defenses will be conducted online, and students should work with those who will be present to develop an appropriate online strategy for the events, using platforms such as Zoom, Webex, or Microsoft Teams.

3. After finding a suitable room available at the designated time, check back with the Program Director to ensure that there are no scheduling conflicts, and, assuming that there are none, finalize the room arrangements.
4. Prepare a one-page announcement of the review containing the following information:
 - Title
 - Candidate
 - Date and Time
 - Location (or procedure to participate online)
 - Committee
 - Abstract [one paragraph]
5. At least 10 days before the proposal review, this announcement must be posted electronically to all Trachtenberg School faculty and students through the Trachtenberg School newsletter (the Skim).
6. The student should ask all members of the review committee whether they prefer a hard copy or an electronic version of the final proposal that is to be considered as the basis of the review.

STEP 3: DISSERTATION PROPOSAL REVIEW

At the dissertation proposal review, you and your Dissertation Research Committee come together to consider the importance of the proposed dissertation project and the appropriateness and feasibility of the research design. This proposal review is really best thought of as a final review prior to giving a student "the green light" to forge ahead full speed on the dissertation. The review also provides an opportunity for the faculty and others in attendance to provide a broad range of constructive input at this critical early stage. Although the meeting is typically conducted more in the spirit of a working session, it culminates in a formal recommendation by the Dissertation Research Committee about whether the research should proceed.

During the proposal review, the Dissertation Research Committee evaluates a student based on both the written proposal and on the oral presentation of the proposal. If approved, the proposal becomes the basis for the dissertation.

The review is open to all Trachtenberg School faculty and students who wish to attend. The procedures to be followed in a particular review should be agreed on by the working Dissertation Research Committee members in a brief pre-review session, but several considerations should generally be applicable.

1. Your chosen Dissertation Research Committee Director (or one of the co-chairs if there is no chair) should chair the review and should indicate at the outset the procedures that will be followed.
2. The chair should then ask you to provide a brief project overview. Because the committee members can safely be assumed to be familiar with the proposal and because the review primarily (though not exclusively) involves you and the committee, a lengthy recitation is

not necessary. Fifteen or 20 minutes should normally be more than enough time for your introductory remarks.

3. The Dissertation Research Committee Director should ensure that there is ample time for questions and comments by members of the committee, other faculty members in attendance, and graduate students, in that order of priority.
4. At an appropriate time, the Director should excuse you and all guests from the room so the committee can formulate its recommendations. When this discussion is complete, the Director should call you back in, convey the nature of the recommendations, and adjourn the meeting.
5. If the Research Dissertation Committee members determine that you should, on the basis of the proposal as presented, be given permission to proceed with the dissertation, they sign the form that the student will be provided. Several alternatives to outright approval are available. These alternatives are:
 - a. If committee members conclude that the proposal needs fundamental revision, it will have to be reviewed again. (Because the committee members agreed to the original proposal review, this option should be exercised only if the actual review turns up serious problems that were not evident earlier.)
 - b. If the meeting has brought to the surface certain concerns that need to be taken into account in the proposal but are relatively narrow, then the committee members may: (1) Delay signing the approval form until the necessary changes have been made to the proposal, but without requiring that a new review be scheduled; or (2) Agree that the readers will sign the form but that the Dissertation Research Director or Co-Chairs will not do so until the proposal has been satisfactorily revised according to the committee's specifications.

After your proposal has received committee approval, you should establish a working relationship with the Dissertation Research Committee members. The nature of this relationship will vary from student to student and from committee to committee (and even within a committee, from member to member). Some committees or some members may expect to play a very active role in guiding the project as it develops. Others may prefer that the committee Director monitor the project closely, with the readers playing a lesser role. There is no single “best” way to proceed, but it is vital at the very least that the Dissertation Research Committee (a) be kept informed of your progress, (b) be consulted when unanticipated problems arise, and (c) review drafts of completed sections on an ongoing basis.

Human Research Requirement

Research at GW using human subjects, which will yield generalizable knowledge in the form of a journal article, poster presentation, master’s thesis, or doctoral dissertation, must obtain Institutional Review Board (IRB) approval before researchers collect data. While often dissertation projects in the social sciences are granted exceptions to Human Research requirements, it is crucial that you make contact with the IRB if you have ANY question as to the applicability of human subjects requirements to your specific research. Frequently students incorrectly assume that their research is not covered by these requirements, only to find out later that IRB review is needed. This can slow data collection, and ultimately completion of the dissertation. Once your dissertation proposal has been approved, the IRB process should be initiated by:

1. Downloading and completing the Non-Medical Submission checklist and Non-Medical Submission form obtained from the [Office of Human Research website](#).
2. Preparing a submission packet. The submission checklist helps to decipher what is required.

Failure to obtain IRB approval will result in the following:

- You will not be allowed to collect data until you obtain IRB approval.
- You will not be allowed to use the data collected for the intended research purposes. You may be asked to re-register for the thesis/dissertation research credits and start the data collection phase over again.
- You will not be allowed to use the data collected for future research (i.e. you will not be able to use the information to publish or as the base for a future study).
- If the study is funded, you will not have access to the funds.

If you have any questions about this process, you may contact the Office of Human Research at any time by calling (202) 994-2715 or by emailing them at ohrirb@gwu.edu.

Office of Human Research
The George Washington University
1922 F Street NW, 4th Floor
Washington, DC 20052

STEP 4: COMPLETE FINAL DISSERTATION DEFENSE

The Final Dissertation Defense is designed, scheduled, and administered by the Trachtenberg School. The defense is an oral examination, open to the public (meaning other current students and faculty may attend, as well as various Deans from CCAS), and is conducted by the Final Examination Committee.

Determine Membership of the Final Examination Committee

Your Dissertation Research Director (or the Co-Directors), in consultation with the Ph.D. Program Director, proposes the membership of the Final Examination Committee, although CCAS has ultimate responsibility for its approval. Care should be taken to ensure that the committee proposed represents the necessary fields of expertise. The committee must consist of at least five members (not including the external Co-Director, if applicable), at least one of whom is from outside the Trachtenberg School. This would typically mean that the final defense examination would be conducted by the Dissertation Research Director, committee members (who, at this stage, are referred to as Readers) and two examiners. An expert from outside the University may be suggested as one of the examiners. The expert, however, should generally be located in the metropolitan DC area; while dissertation defenses are being conducted online, examiners need not be located in the DC area. Your current or prospective immediate supervisor of employment is not permitted to be an examiner.

Dissertation Research Committee Directors and Co-Directors take on the role of Advocate during the final dissertation defense. Advocates normally do not ask questions, but they can

participate by providing clarification as needed. Advocates often take notes during the session. Their main role is to advocate on behalf of the student during the executive sessions.

Finally, the proceedings must have a Chair who runs the process. The chair serves in a procedural capacity to ensure the proceedings are conducted properly. The Chair must be affiliated with the Trachtenberg School, and emeritus faculty and adjunct faculty may serve as Chair. The Chair cannot be one of five committee members. The Program Director and the Dean of CCAS, prior to the dissertation defense being scheduled, must approve the Final Examination Committee, including the examiners. The [Dissertation Defense Scheduling Form](#) must be turned into the Ph.D. Program Director (Burt Barnow) and Assistant Director of Graduate Studies (Deneé Bottoms) directly at least three weeks prior to the desired defense date.

Schedule the Dissertation Defense

After the final examination committee has been approved, and the Dissertation Research Committee Director has informed the Program Director that the dissertation is ready to be defended, the student shall:

1. Provide a hard copy (or electronic copy if preferred by a member) of the final version of the dissertation to each member of the final examination committee at least three weeks before the intended date.
2. Schedule a time and location for the defense that is acceptable to all required attendees with the Assistant Director of Graduate Studies. The room will not be reserved until the committee has received the dissertation copy. If the defense is to be held online, the student should arrange for an appropriate platform. Note that the defense should be scheduled for 2 hours.
3. Supply the Assistant Director of Graduate Studies with all relevant information so that she may notify the Trachtenberg School and GWU community of the scheduling of the dissertation defense.

Final Dissertation Defense Process

The process at the defense is typically as follows:

- The Chair of the proceedings introduces the committee and describes the process
- The Dissertation Research Committee Director (Advocate) introduces the candidate
- The candidate summarizes his/her research for 15-20 minutes
- Questions (usually in the range of 3-4 questions) are posed first by the non-GW examiner (if there is one), followed by the internal Trachtenberg School examiner(s)
- Then questions are asked by the committee members (Readers)
- There is typically time for a second round of questions, and if needed, a third round
- Questioning will be stopped with about 30 minutes remaining
- The candidate and guests leave the room for the Final Examination Committee to deliberate
- Decision options are to **Approve As Is**, **Approve with Modifications**, or **Reject and Re-defense Required**. If modifications are required, the committee will determine the nature and scope of the revisions as well as identify which committee member(s) will review the changes
- The candidate is invited back into the room to hear the decision.

These instructions for Ph.D. examinations (or, dissertation defenses) reflect a continuation of those that were emailed to departments on March 13, 2020. In accordance with GW's Fall 2020 Plan to move nearly all instruction online, Ph.D. examinations will continue to be conducted virtually until the university resumes normal on-campus operations. The remainder of this paragraph refers to Zoom as the platform to use, but Webex or Teams may also be used. Until further notice, departments should conduct all Ph.D. examinations using Zoom and should ensure that all required participants—including the student, the dissertation committee (director or co-directors and two readers), the two examiners (one from within the academic unit and one from outside), and the chair of the examination—all have access to the necessary hardware, software, and Internet connection to conduct the examination online. The dissertation director should take responsibility for initiating the virtual exam and may want to establish trial connections with each required participant a day or two in advance of the scheduled exam to make sure all participants know how to use Zoom. Best practices for a successful meeting can be found on GW's Information Technology Web & Collaboration page. Because CCAS believes it is important to replicate our usual Ph.D. defense procedures as much as possible in a virtual environment—including our practice of allowing other doctoral students, scholarly observers, friends, and family to attend CCAS students' dissertation defenses—we recommend that the department use Zoom to conduct the defense. At the conclusion of the examination committee's deliberations, the meeting's host can re-admit the student and observers from the Lobby to the meeting to inform the student of the decision that the examination committee reached by majority vote. As much as possible, please follow CCAS Ph.D. Defense Procedures when conducting virtual examinations. (The instructions for the student and examination committee to stand or not stand as the results are announced can be disregarded.) CCAS is grateful for your flexibility in conducting Ph.D. examinations in these unprecedented times. We know these changes create new challenges for faculty members and students, and the CCAS Office of Graduate Studies is ready to assist you in any way that we can. Please contact Nicole Davidson, Manager of Doctoral Student Services for CCAS, with any questions you may have about the examination process or how to report the results.

STEP 5: SUBMISSION OF DISSERTATION

Once the student has successfully completed the Final Dissertation Defense examination and the Final Examination Committee has verified that any required revisions to the dissertation have been made, you should submit the dissertation through the [Electronic Thesis and Dissertation \(ETD\) website](#) and submit to CCAS the completed [ETD Approval Form](#). For deadlines concerning final submission of doctoral dissertations, please consult the [ETD website](#). Formatting guidelines are provided on the site. The guidelines are designed to produce documents that are uniform in style, but they also allow for the particular requirements of various disciplines.

You may access and print the [Survey of Earned Doctorates](#) from the ETD website. The certification page in the dissertation should only include the core Dissertation Research Committee (Director/Co-directors and two Readers). Please use academic titles only (this information is in the University Bulletin). Do not use titles such as Dr., Ph.D., or MD.

Dissertations will first be sent to the Gelman Library for approval. Once approved by Gelman, the dissertation will be forwarded to CCAS for a final check. You may receive instructions from Gelman or CCAS to make changes and upload a revised edition of their work. You will be notified by email once the dissertation has been forwarded to ProQuest/UMI. You will pay ProQuest/UMI directly online. The amount charged will depend on the publishing option you select. GW recommends students choose the Open Access option in the interest of making their scholarship as accessible as possible. Accepted dissertations and any accompanying illustrations become the property of the University. The University is to be given credit for material used in the publication of any portion of a dissertation, whether as a direct quotation or as an adaptation.

As a student submitting a dissertation, you should be aware of copyright and fair use considerations. Understanding Copyright and Fair Use will help reduce your concerns. You are encouraged to review the [information about copyright issues](#) on the ETD site.

Post-Dissertation Defense Checklist

1. Completion of all edits and submission of dissertation for final approval to the designated member(s) of your committee.
2. Once final approval has been given, has uploaded the dissertation and followed all steps located on the ETD website under “[Steps in Submission](#)”:
 - a. Submission of Dissertation to ETD
 - b. ETD Approval Form – signed by you and your Dissertation Research Committee Director. Submitted directly to [Nicole Davidson](#) (Smith Hall, Suite 118)
 - c. Completion of [Survey of Earned Doctorates](#) – Submitted online or to [Nicole Davidson](#) (Smith Hall, Suite 118)
3. Email the Assistant Director of Graduate Studies to inform him/her that your dissertation has been submitted. This will prompt him/her to prepare final graduation paperwork.
 - a. If your title has been altered during the dissertation defense and editing process, please let the Assistant Director of Graduate Studies know ASAP.
4. Follow all other steps outlined by the ETD site.
5. Final dissertation has been accepted by ETD and the GW library.

Congratulations – you have completed your dissertation! You can begin referring to yourself as “doctor.”

DISSERTATION DEADLINES

These deadlines assume that the student has been sending drafts to Dissertation Research Committee members regularly and only minor changes are needed at each stage. Students must allow two weeks for faculty comments. The dates below allow approximately one additional week for students to respond to those changes. Firm CCAS requirements are listed in bold. The dates included here were [provided by CCAS](#) at the time the handbook was prepared, but due dates sometimes change for the current year, and they will almost certainly be different in future years, so be sure to check with CCAS on the deadlines in the semester you plan to complete your dissertation.

Graduating Semester	Fall 2021
Full working draft given to 3-4 committee members for comment	Sept. 28
Revised draft given to 3-4 member committee	Oct. 12
Final full copy to committee plus examiners	Oct. 26
Deadline to apply to graduate on GWeb	Nov. 15
Submit Dissertation Examination Defense Form	Nov. 2
Defend dissertation	December 1
Preclearance by CCAS: --DegreeMap reflects degree requirements completed except the dissertation and dissertation research courses --Attended ETD dissertation formatting/publishing workshop	Nov. 19
Submit electronic dissertation to GW Proquest site	Dec. 6
Electronic Dissertation approved by ETD administrator	Dec. 11

**NOTE: If you have a different deadline for completion based on a petition to the Dean's office, you need to allocate the same amounts of time from that date as indicated on the table above.*

SECTION VII: POLICIES AND ADMINISTRATIVE ISSUES

Over the course of your time as a Ph.D. student at GW, there are a number of administrative issues and policies that will be necessary for you to understand to successfully navigate the process of obtaining a Ph.D. In this section, we have identified the most common of these issues:

- Program committee
- Course load and attendance
- Transferring credits
- Requesting leaves of absence and extensions
- Full-time student certifications
- Travel and research support
- Teaching and other funding opportunities

In addition, this section lists other useful University policies and resources, such as academic integrity policies and library resources. There is also a list of websites and links for common issues confronted by Ph.D. students.

Kate Yang

Assistant Professor of Public Policy and Public Administration
MPA Building, 601G
202-994-6621
langyang@gwu.edu

COURSE LOAD AND ATTENDANCE

Part-time students are expected to take two courses in each fall and spring semester. Full-time students are expected to take three courses in each fall and spring semester. Summer registration is optional except if it is the semester in which a student is graduating. Students who wish to take less than the normal load should consult with the director of the Ph.D. program. Students who wish to change their full-time or part-time status should consult with the Director of the Ph.D. program.

Course attendance is required. If a student knows before the start of the semester that he or she will be missing more than two meetings during the class, they should consider alternative course selections.

Research Seminar Series: The Trachtenberg School holds periodic lunchtime research seminars. At these seminars, faculty, doctoral students, and outside scholars present research. Faculty are invited, and doctoral students are expected to attend as often as possible and to make a presentation at least once during their time in the program.

TRANSFERRING CREDITS

Students who enter the program with graduate credits from another institution are eligible to request a transfer of credits, to be applied to the 72 credits required for the Ph.D. in Public Policy and Public Administration. The transfer of credits may only be requested after the student has been enrolled in the Program. Transfer must also be approved by the Dean of CCAS. Students are required to submit their request for transferring credits during their first year of enrollment in the Ph.D. program.

Normally, students with a Master's degree from GW or another accredited institution may be permitted to transfer **24 credits** into the Ph.D. Program. Students requesting transfer of 24 credits need to submit a petition to the Ph.D. Program Director (Burt Barnow) indicating the desire to transfer credits. Some students may find that the transfer of 24 or more credits will necessitate ultimately earning more than the 72 credits technically required for the Ph.D.

Students can receive **three additional credits if they have taken the equivalent of PPPA 6013**, and students can receive **three additional credits if they have taken the equivalent of PPPA 6014**. Students who wish to receive credit for 6013 and or 6014 should provide the Director of the Ph.D. Program with a transcript (unofficial transcripts are acceptable) and a syllabus for each specific course for which they would like to receive credit. The request for three or six additional credits should be made in the petition for the 24 credits for having a Master's degree. Students should have a conversation with their field advisor and the Ph.D. Program Director prior to requesting a transfer of credits if there are any questions concerning the impact of the transfer of credits on completion of program requirements. The Transfer Credit Request form can be found here: [Transfer Credit Form](#). Students can submit the form to the Assistant Director of Graduate Studies (Deneé Bottoms) or with the Ph.D. Program Director (Burt Barnow).

REQUESTING LEAVES OF ABSENCE AND EXTENSIONS

Students have eight years from their first semester in the Program to complete all degree requirements, including successful defense of the dissertation. In exceptional circumstances, however, students may request either a leave from the Program or an extension of time to finish the dissertation.

Leaves of Absence

Students who are temporarily unable to continue their program may request a Leave of Absence (LOA). Such leaves are typically only granted in cases related to some significant life event, such as serious illness, death of a loved one, or the birth of a child. The student should submit a

petition form to the Ph.D. Program Director through the Assistant Director of Graduate Studies. If the request is approved, CCAS will inform the student and submit the required registration paperwork to the Office of the Registrar. Students on LOA do not have access to University facilities including the library and the faculty. No more than two semesters LOA is allowed over the total period of enrollment in the Program. Time spent in a leave of absence does not count toward the eight-year completion requirement. The Leave of Absence form can be found here: [Leave of Absence Form](#).

FULL-TIME STUDENT CERTIFICATION

Students are permitted to petition for certification as full-time students if they are unable to take the required credits of coursework otherwise required for such status due to unusual personal circumstances or having finished all coursework. If approved, this certification will allow certification of full- or half-time study with a registration of fewer credits than officially required: 9 credits per semester for full-time study; 4.5 credits per semester for half-time study.

In the summer, full-time status requires 6 credits, and half-time status requires 3 credits. This certification frequently applies to students at the dissertation stage once they have completed the required 72 credits. If approved, the full- or half-time status will be entered into the student record system. This status information is available to offices across campus, such as housing and financial aid, and is reported electronically at least twice a semester to the National Student Loan Data System (NSLDS). Once reported, almost all lenders and guarantee agencies have access to this data. Students do not have access to this online information. Trachtenberg School Ph.D. students should submit the [Full-time Certification Form](#), found on the GW registrar's website, for processing by the Assistant Director of Graduate Studies and approval by the Ph.D. Program Director and the Dean of CCAS.

Notes to Students (from Registrar)

- Requests for exception to the official registration requirements will only be considered for reasons listed on the full-time certification form. Students at the end of their time in the Program who only require a three-credit course in a semester to complete their degree cannot be certified either full- or half-time. Similarly, students at the end of the Program taking 6-8 credits of coursework cannot be certified as full-time.
- Students working more than 20 hours per week cannot be certified as full-time.
- Students must complete a form for each semester certification is requested.
- Only current and past semesters may be verified.
- Students must be registered for the semester requested before the certification form can be processed.
- Incomplete forms will not be processed and will be returned. All signatures are required.
- Forms cannot be approved, and enrollment status updated until the first day of classes for the semester requested. Students must be registered for the category indicated on their request form.
- Students must submit special requests to notify offices outside of the University of their status by completing a [Request for Certification form](#) through the Office of the Registrar.
- The Request for Certification form may also be required if the Half-time/Full-time Certification form was approved after the data was submitted to the NSLDS.

TRAVEL AND RESEARCH SUPPORT FOR PH.D. STUDENTS

The Trachtenberg School will, to the extent feasible, assist its Ph.D. students in defraying costs for expenses related to their development as researchers. This includes, but is not limited to, support for travel to present research at professional conferences. The purpose of this policy is to establish a process for the award of these funds, and to inform students of the availability of other sources of funds in the University,

As a Ph.D. student, you will likely find it useful, for your professional development, to engage in activities involving the outlay of funds to support your own development as a researcher. This would include participation in professional conferences, attendance at research methods training seminars and the purchase of necessary software to conduct dissertation research. For travel to professional conferences, there are two sources of funding available within the university, each of which has certain limitations:

- The Columbian College of Arts and Sciences (CCAS)
- The Office of Graduate Assistantships and Fellowships

The Trachtenberg School may support travel to present papers in some cases. As this handbook goes to press, travel support from CCAS and the Trachtenberg School have been suspended. As danger from travel subsides and the university regains its financial footing, travel assistance may again be available; students should consult with the Director of the Ph.D. program for current availability.

Advanced Training and Other Workshops

With funding from the Kee Endowment, the Trachtenberg School is able to periodically support travel to the ICPSR (Inter-university Consortium for Political and Social Research) Summer Institute or other advanced training programs. ICPSR offers two highly regarded 4-week Summer Programs for Quantitative Methods of Social Research. Interested applicants must submit a 1-2-page summary of progress in the program and, to the extent possible, the type of research methods you are likely to be using in your dissertation. Please submit your application to the Assistant Director of Graduate Studies when the need for such funding arises.

TEACHING OPPORTUNITIES

Ph.D. students, particularly those who desire a career in academia or are interested in teaching courses upon completion of their PhDs, are encouraged to take advantage of opportunities to gain teaching experience. These opportunities tend to fall into three categories:

- Serving as a teaching assistant, co-teaching a course, or being an instructional assistant under the supervision of a faculty member;
- Team-teaching a course with a faculty member; and
- Teaching a course independently.

In most cases, to be a TA or to team-teach a course, the student must have passed the Core Comprehensive Examination. Students who meet this requirement and are interested in teaching should email Ph.D. Program Director Burt Barnow to indicate their interest.

Any student serving as a graduate assistant, TA, or involved in team teaching must take the TA course offered by CCAS and the Graduate Office of Assistantships and Fellowships. This course is typically only offered once a year in late August. Instructional assistants are often used to run course labs. These positions are available at any stage of the program. Students must have passed both their Core Examination and their Field Examination to be eligible to teach a course independently. The Trachtenberg School will periodically notify Ph.D. students of teaching needs and offer those interested an opportunity to express that interest. In addition, particularly during the summer sessions, Ph.D. students may be given an opportunity to propose courses that they are interested in teaching. Any questions concerning teaching or assisting in classes should be directed to the Ph.D. program director.

ACADEMIC INTEGRITY POLICIES

Students are required to adhere to University policies regarding academic integrity. Plagiarism is taken very seriously in the Ph.D. Program. Individual faculty members have the right to specify penalties for plagiarism and those penalties currently range from a zero on the assignment to an “F” in the course. Make sure you understand what plagiarism is and avoid any suggestion of it.

You will be expected to exhibit honesty and competence in their academic work. Incoming students have a special responsibility to acquaint themselves with, and make use of, all proper procedures of doing research, writing papers and taking examinations.

Students will be presumed to be familiar with the proper academic procedures and held responsible for applying them. Deliberate failure to act in accordance with such procedures will be considered academic dishonesty. Acts of academic dishonesty are a legal, moral, and intellectual offense against the community, and they will be prosecuted through the proper University channels. The [University Code of Academic Integrity](#) is located on the Academic Integrity Office website.

CONSORTIUM OF UNIVERSITIES AND LIBRARIES

Consortium of Universities of the Washington Metropolitan Area

The George Washington University is a member of the Consortium of Universities of the Washington Metropolitan Area. Eleven universities in the Washington area — American University, Catholic University of America, Gallaudet University, George Mason University, George Washington University, Georgetown University, Howard University, Marymount University, Southeastern University, the University of the District of Columbia, and the University of Maryland — are associated in a Consortium through which they coordinate the use of their respective facilities. Trinity College is an associate member of the Consortium. Students in approved programs leading to degrees in any one of these institutions have the opportunity to select from the combined offerings the particular courses that best meet their needs. This privilege is subject to regulations of the school in which the student is enrolled. Participation is limited to degree candidates. For specific regulations and further information, please see the [University Bulletin](#).

University Libraries

The George Washington University is a member of the Association of Research Libraries. The library collections of the University, housed in the Estelle and [Melvin Gelman Library](#) (the general library of the University), in the Jacob Burns Law Library, and in the Paul Himmelfarb Health Sciences Library, contain some two million volumes. University appropriations supplemented by endowments and gifts provide research materials in the social sciences, the humanities, the sciences, and business. Gifts from many sources have enriched the collections, including a large National Endowment for the Humanities grant to strengthen the University's humanities holdings. The libraries hold over 18,000 serials. As this handbook goes to press, physical access to the libraries is limited to students whose identification card has been activated to indicate immunization against COVID-19 and a negative test within the past month. Students should contact the library by email or phone with questions regarding library access while the university is operating under COVID-19 restrictions.

Students, faculty, and staff of The George Washington University (except medical and law students) may borrow directly from the main campus libraries of six other academic institutions in the Washington Research Library Consortium (WRLC). Students may also obtain books and journal articles on interlibrary loan from other libraries in the area and throughout the United States.

[ALADIN](#) is the electronic library resource of WRLC and contains the combined on-line catalog of the seven member universities with more than 4.3 million records, as well as a rich array of electronic databases, indexes, and full texts. ALADIN can be accessed from numerous computers in the libraries as well as remotely from on and off campus.

Information concerning the use of the libraries may be obtained from the [Gelman home page](#) and at library service desks. Individual and class instruction in the use of the library and orientation to library facilities are given by librarians upon request as well as through print, media, and computer-assisted instruction. The libraries strive to fulfill the curricular and research needs and interests of students. Through computerized searches of bibliographic databases, students

identify and locate desired research materials not easily found through more traditional methods. The staff assists all members of the University in using the rich resources of the DC area and the unusual opportunities they offer for extensive research.

Electives

Additional courses may be taken depending upon student's background
(Note: if you transferred in credits from a previous graduate degree, they generally replace these electives)

ECON 6007 (if taken)			

Dissertation (12-18 credits)

PPPA 8191***	Dissertation Workshop		
PPPA 8999	Dissertation Research		
PPPA 8999	Dissertation Research		
PPPA 8999	Dissertation Research		
CCAS 0940	Continuing Research – Doctoral (1 credit/semester) <i>(Taken after reaching 72 credits, if needed; used to maintain continuous registration.)</i>		

TOTAL CREDITS _____

*If this or comparable course has been taken previously, must substitute with another advanced methods course.

** PPPA 8190 should be taken earlier in the program, rather than waiting until dissertation stage.

*** PPPA 8191 is to be taken after the field courses and the field exam are complete and before the dissertation proposal review.

Special Approvals: Please list any approved substitute for the standard requirements as listed in the Student Handbook, with name of the person who approved the substitute and the date of the approval. Save a copy of email approvals for reference.

Reminder: Students must maintain an overall GPA of 3.3 in order to remain in the program

**PH.D. IN PUBLIC POLICY AND ADMINISTRATION
PROPOSAL REVIEW SCHEDULING FORM**

Must have an approved Program of Study Form on file before submitting this form.

Instructions to Students:

Submit a paper or electronic copy of the final, complete proposal (based on each member's preference) and the requested proposal review date, to each committee member at least 3 weeks before the requested date.

Candidate's Name: _____ Date: _____

Email: _____ Home Phone: _____

Work/Cell Phone: _____

Requested Date: _____ Requested Time: _____

Instructions to Dissertation Director:

After communicating with all members of the committee, the dissertation director should check each space below to indicate each member's approval that this version of the proposal is ready for review. The form should then be given to the Assistant Director of Graduate Studies.
