What is open contracting?

DATA
An open data standard to foster re-useable tools and make government contracting data actionable

DISCLOSURE
Improved disclosure of open, timely, and accessible information for the full government contracting process

ENGAGEMENT
Business & civic engagement to make sure everyone has equal information to participate

ANALYSIS
MONITORING
FEEDBACK & FIXES

INNOVATION
Smarter analysis, more agility and better solutions for public problems
Benefits of open contracting

• Save governments money & time
• Prevent fraud and corruption
• Level playing field for business, esp SMEs
• Improved service delivery

= more agile procurement
= more trusted government
= improved quality of life for citizens
Our approach

- Multi-stakeholder collaboration
- Constructive engagement
- Working across entire contracting chain
- User friendly data
- Capacity building of stakeholders
- Tool development & adaptation
- Institutional mechanisms for feedback
An open data schema describing how to release documents and data at each stage of a contracting process as machine readable, flexible, extensible, user friendly data.
Unified, structured data & records

- Documents & notices
- Buyers, suppliers & organisations involved
- Key Dates
- Contract values, budget & spending
- Line items & their classification
- Milestones & performance
- Location
- Joined-up data links
Open contracting worldwide

- Implementation: Ukraine, Paraguay, Canada, Montreal
- Implementation in progress: Colombia, Indonesia, Mexico, Mexico City, Moldova, Mongolia, the Philippines, Romania, the UK, Vietnam, Zambia
- Open contracting projects by civil society: Russia, Taiwan, Nigeria, South Africa, Indonesia
Impact from Slovakia:

8% of citizen engaged
Doubled competition
Prevention of fraud and wasteful spending
Use cases

The 4 use cases of open contracting:

- Value for money in procurement
- Detecting fraud and corruption
- Encouraging competition for public contracts
- Monitoring service delivery
Examples:
Nigeria, Philippines, Mongolia
OPEN CONTRACTING FOR NIGERIA

- Construction of Primary Health Care Centres
  - Budget Amount
  - Contract Amount

- Construction of Primary Health Care Centres
  - Budget Amount
  - Contract Amount

- Construction of Primary Health Care Centres
  - Budget Amount
  - Contract Amount
Philippines

Cost of textbooks:

US$ 2

US $1
Mongolia

- Engaging citizen in contract monitoring
- Food Festival and open bidding to select local delivery at beginning of each school year
  = Improved delivery, hygiene and quality of “tea break”
Thank you!
